Springwood Gardens 2017

Springwood Gardens is a family-owned mail order nursery. I specialize in breeding fancy, northern hardy, tetraploid daylilies with great color, many of which are outstanding breeders. I have 11 introductions for 2017, at least 6 of which are dormant. Most are ML, and look very pretty blooming near each other and near the 2016 intros. Due to outstanding feedback, I am also “re-introducing” Vision of Things to Come, an intro from 2015 which was available that year only as a gift plant.

The website includes several pictures of each introduction, plus selected offspring if any. You are welcome to use any of the photos without permission. A word about pricing of my new introductions. Just because I’ve priced a plant at less than \$100 doesn’t mean it isn’t gorgeous and a terrific performer that will make a statement in your garden. More likely it means that I haven’t yet seen kids from it, or that it is wonderful and distinctive in one or more aspects but doesn’t have a brand new look. I also don’t believe a couple of flowers should cost as much as a mortgage payment©

A word about rust. Despite strict protocols, I spotted rust in the greenhouse in February 2016 for the first time in 6 years. I immediately undertook a spray program and the plants you receive will be beautiful, but anything in the greenhouse may have been exposed and it may show up later in your season. It seems that most people don’t care anymore, but if you do, please let me know, as I have a small number of my intros growing outside (where winter kills it off). I can send those if available, and if not, I can plant your order outside and send May 2018. Thank you for your understanding.

Thank you so much for the nice e-mails about the flowers you receive as well as the pictures of your gardens and seedlings. I love hearing from you. Best wishes,

Karol Emmerich

E-mail: springwoodgarden@aol.com

Website: www.springwoodgardens.com

Blog: www.springwoodgardens.blogspot.com

COLLECTION AND CLUB PRICING: Contact me for discounted pricing if you want all or most of them. Special pricing for club orders for auctions or “baby-sitting” plants (at least twice catalogue value).

GUARANTEE: Springwood Gardens’ introductions are guaranteed for a year in zone 4 and higher if: they are planted well before fall frost and grown in normal garden conditions (e.g. grown in the ground rather than in pots, not in standing water, watered as needed, soil not overly compacted); bark or other mulch is put around the plants to keep the roots cool and moist (no extra winter mulching needed); plants are not divided when first received or during the first year. (Note: it’s best to avoid dividing or transplanting daylilies when they are stressed by high temps or drought, and northerners report better success dividing daylilies in spring or early summer, rather than in the fall.)

SALES INFORMATION: Each order is important, and I personally choose and box each plant. Plants are state-inspected. Shipping is by priority mail from March 15 to June 30 (although if I have time to ship after that I will). \$10 for the first plant and \$3 for each additional plant. Check or money order should be made payable to Springwood Gardens. U.S. shipments only (except that I may be able to ship to the Can Am meeting – check with me). **Prices are for a double fan.** I ship large plants, although sometimes the size is weather or cultivar dependent. I promise you will be very happy with the size of your order as a whole© All Springwood introductions have been grown and tested outside before selection. They are not babied or given special care. They are planted on top of a cold, windswept hill with almost no snow cover. The ground around the daylilies is covered with a couple of inches of hardwood bark for weed control. They are given at least an inch of water a week during the growing season and only rarely any fertilizer. During bloom season, nights are typically in the 60’s and days in the 80’s and 90’s, but in making evaluations, I also watch how the flowers open when temps are in the 50’s. Most of the dormants are lined out outside. The semi-evergreens are lined out in the greenhouse (where they are grown in the ground in raised beds, receiving only regular fertilizer and water and sprayed for insects as needed), enabling you to receive large, high quality, blooming size plants when it’s most convenient for you in the spring. I recognize that not everyone is enamored of plants grown in greenhouses, but in our climate it’s often the only way I’m able to ship before early June! Bloom occurs in April and May in the greenhouse, and it is likely you will receive a plant that has already scaped (happy to send scapes for pollen if I have them). Most buyers report first year bloom (and often rebloom) on the majority of the plants that I send, although not usually in sync with their peak bloom time. Northerners will find that their plants will re-establish more quickly if they request delivery after the soil has warmed up in their area and after hard frosts are expected.

VISITORS: Peak bloom outside is usually late July through mid-August; peak bloom in the greenhouse is usually mid-April to late May. The greenhouse and garden are open by appointment, and I do formal tours for groups of 8-10 or more.

2017 INTRODUCTIONS

CALLED TO FREEDOM TET 18407 [(Faith That Moves Mountains x sdlg) x Chariot of Clouds], where the sdlg includes Light of the World, Way of Life, Rock of Salvation, Regal Majesty, Clothed in Glory, and Heartbeat of Heaven. 7" (range of 6-7.5"), 33", 4-way branching, 23 buds (range of 12-30+ with some bud building), ML, Sev, fr, no rebloom noted, good opener on cool days. Grape cranberry with grape eye; grape plus ivory edge; green throat. Beautiful, consistent blooms. Wide petals and strong scapes. Performed well in our 2012 Midwest malaise year when 90% of the garden didn't bloom. Fertile both ways.....\$75df

CAUGHT UP IN THE CLOUDS TET 68609 {(sdlg x Desire of Nations) x [sdlg x (Chariot of Clouds x Skin of My Teeth)]} where the sdlgs include a wide diversity of plants including Filled to Overflowing, Way of Life, Light of the World, Remembering Joan, and even J.T. Davis. 5.5", 40" (with a range of 30-42"), 4-way branching (with a range of 2-5 way; average of 3-way when crowded), 24 buds (range of 13-24) in a crowded clump, ML (blooms here all of August and into September), EMO, CMO at 50 degrees, Sev (I think), fr., no rebloom noted. Pale cranberry lavender grape; chalky lavender eye and edge; yellow to green throat. Bouquet bloomer for weeks, and looks like a cloud floating in the garden. Sometimes blotches after rain. Looks like a Munson on steroids with great garden value year after year.....\$50df

CORD OF THREE STRANDS TET 46412[sdlg x (sdlg x All Things to All Men)] where the sdlgs include a wide diversity of plants including Skin of My Teeth, Enduring Freedom, Kingdom Without End, Gnashing of Teeth, Chariot of Clouds, Secret of Contentment, etc. 6", 27" (range of 22-30"), 4-way branching (range of 2-4 way), 17 buds (range of 7-24; higher when first planted; scapes vary a lot), ML, Dor, no rebloom noted, fr. Pale coral pink; lavender purple plus icy lavender plus ivory and yellow edge; chartreuse throat. Changes colors a lot with temperatures – see website pics.....\$85df

CRYNG IN THE WILDERNESS TET 45208 [Skin of My Teeth x (Entwined in the Vine x sdlg)] where the seedling includes Tet LBB, Heartbeat of Heaven, Regal Majesty, Eyes on the Prize and Clothed in Glory. 6", 24" (range of 20-28"; can be 20" in first year of planting or in poor location), 3-way (range of 3-4), 15 buds (range of 12-23, and average can be lower in a poor location), Dor, M to ML, Re (but not MN), fr, A good opener here, but not recommended if your nights are typically in the 50's. Merlot; lavender purple eye; ivory toothy edge on petals and sepals; green throat. Beautiful clear color. Pictured on its best day, but always toothy – see additional website pics. Fertile both ways and a great parent! – see website for pics of offspring. I never tried it with patterned things since I had forgotten it was out of Entwined in the Vine, so will correct that in 2017☺.....\$100df

DREAMER OF DREAMS TET 57107 [Kingdom Without End x (Heartbeat of Heaven x sdlg)] where the sdlg includes Lake Effect, Heartbeat of Heaven 2x, Regal Majesty, and Clothed in Glory. 6.5", 32" (range of 26-34"; note that in the first year it was 24" average, and other years 30-32"), 3-way branching when crowded (range of 2-4) and 4-way when not, 15 buds (range of 11-19, and a few more when not crowded), ML, registered as Sev (but not positive since grown in a remote spot on a steep slope that I don't get to except in bloom season – if important to you, ask me in January), a bunch of instant Re in MN, vfr. Cranberry violet; chalky lavender watermark; chalky lavender plus ivory edge with some sharks; yellow to green throat. Very tough, reliable plant with beautiful color. Grown on steep north slope battered by wind. No idea on fertility since always an outside plant, but pollen looks good and parents easily fertile.....\$85df

GENTLE ANSWER TET 51212. [{(Chariot of Clouds x Skin of My Teeth) x Not Guilty] x [(Born to Reign x Joan Derifield) x Heartbeat of Heaven] } x (sdlg x All Things to All Men)]. 6", 27", 3-way branching (range of 2-4; in first year of evaluation it was 2-6 way), 18 buds (range of 10-29 with some bud building), ML to Late, Dor, Re (but not MN), fr. Purple; gray lavender eye; gray lavender plus ivory edge; yellow to green throat. Fertile both ways.....\$85df

HIDDEN IN MY HEART TET 45912 (Reach for the Sky x All Things to All Men) 6+", 26" (range of 26-28" and shorter in first year), 4-5 way branching (range of 3-5), 25 buds (range of 18-30), Dor, ML, some MN instant Re some years, fr. Dark cranberry pink; cranberry pink plus icy lavender eye; cranberry plus icy lavender plus yellow ivory edge; yellow to green throat. This flower has many different looks and color ranges depending on the weather (see website), and on rare occasions it will show a funky pattern. Sorry, no idea on fertility, although pollen looks good parents easily fertile.....\$100df

HOLD ME CLOSE TET 20310 (Hiding Place x All Things to All Men) 5.5" (range of 5-6" and consistently 6" in GH), 28" (range of 24-30"; 24" when newly planted), 5-way branching (range of 3-6 way), average of 30 buds over the years (range of 18-41; 25 average on a newer plant; 34 average on an established plant, some MN instant Re some years with blooms into September, M, Sev, fr. Good opener outside (but slow opener early in the season in the GH in case that is where you are growing yours). Dark lavender pink; violet etched band and neon lavender watermark; violet plus lavender plus ivory plus silver edge; green throat. Nice foliage. Not a rapid increaser, but lovely with lots of bloom. Fertile both ways.\$75df

LET THE SEA RESOUND TET 17010 (sdlg 13107 x Desire of Nations), where the sdlg = Repeat the Sounding Joy x blue-eyed 17305. 6", 32", 4-way in a normal year and a bit crowded (range of 2-5 way) but 6-way summer of 2016 with a zone 5 winter on a 2 year plant, 20 buds in a normal year (range of 10-30) but 35 with a zone 5 winter, Sev, ML (starts near end of M), no Re in MN but heavy instant Re in GH, CMO, EMO, fr. Cranberry violet (with a slight reverse bitone); chalky lavender eye; chalky lavender edge plus ivory filigree; green throat. Consistently nice blooms with no spots. Super hardy. Easily fertile both ways. A wonderful parent! – see website for kids.\$100df

LILY AMONG THORNS TET 14910 {[Entwined in the Vine x Intelligent Design] x (Inscribed on My Heart x Entwined in the Vine)] x All Things to All Men} 7" (often 7.5"), 28" (range of 24-30"), 4+ way branching (range of 3-7; less when crowded), 20 buds (range of 13-31; less when crowded), EMO, CMO, ML, Sev, MN instant Re on some scapes in some years (on all scapes in GH), fr. Lavender pink; cranberry grape plus dark lavender eye; cranberry grape plus dark lavender edge plus ivory sharks on both petals and sepals; chartreuse throat. I LOVE this gorgeous flower. Easily fertile both ways. I didn't use it much since I don't have many things that are similar to it. Will correct that in 2017, including putting it with my toothy purples\$125df

TRIALS OF JOB TET 52708 [(sdlg x Secret of Contentment) x Gathering of Nations] where the sdlg includes things like Storm Shelter, Jane Trimmer, Tet LBB, Uppermost Edge, Wolf Eyes, Pirate Lady, Light of the World, Lake Effect, Heartbeat of Heaven, etc. 7.5" (range of 7-8"), 30" (range of 30-38"), 4-way but lots of 5-way, 25 buds (range of 18-28), Dor, some MN instant Rebloom, ML, fr. Blooms here until the end of August when most things are done. Picture perfect scape. Dark cranberry pink; merlot eye; merlot and ivory yellow edge; green throat. One of my BEST parents for dormant, hardy, well-branched, taller kids. Will breed patterns, eyes, solids. See pics of offspring on website. Why the name? Although it does have some excellent days, it tangles and spots more than half the time, so it is NOT RECOMMENDED AS A GARDEN PLANT. Because of its flaws, it may not be re-sold or gifted – please note your acceptance of that on your order form. Also, please don't post pictures of it on facebook on a bad day – you will make me sad ☹️ Despite its flaws, it is such a wonderful northern parent that I wanted to give others the chance to use it. Just be careful not to put it with tangles and "crackers". That said, I've seen no problems at all with the grandkids. Not an easy pod parent but easy pollen. **Available to hybridizers as a gift with a \$300 order (or Gathering of Nations if you prefer with the same stipulations), or by itself for \$150 with the same stipulation that it is for personal use only.**

VISION OF THINGS TO COME (intro from 2015) TET 46707 (Repeat the Sounding Joy x Chariot of Clouds) 6", 25", 4-way (range of 3-5) in normal years here in zone 4 but it was 5-6 way summer of 2016, 15 buds here normally and when crowded (range of 11-26) but 25 here summer of 2016, lots of MN instant Re (and in 2016 there were 3 scapes on most fans - wow!), M to ML, Sev, fr. Cranberry with darker cranberry eye, ivory edge, yellow to green throat. Based on the excellent feedback and pictures I received from New Hampshire, Kentucky, Iowa and Nebraska, plus many people urging me to offer it for sale, plus performance here this summer in

different locations from where it was originally tested (previously near moisture sucking arborvitae that were also full of spider mites), I decided to offer it for sale. Catalog picture taken by Theresa Maris in Kentucky, where it consistently had this wonderful dark color and gaudy edge. It has never looked quite like this for me in Minnesota, although it came close during the summer of 2016 with our warm zone 5 winter and summer. See other pics on website. Good parent and fertile both ways.....\$100df
